« [Information about M8.8 earthquake along Chilean subduction interface](#)

[How do we determine that the recent Chile earthquake was “500 times larger than” the recent Haiti earthquake?](#) »

[Ramon Arrowsmith & Mike Treder: Science Saturday: Earthquake Edition \(Blogging Heads TV\)](#)

Check out this discussion:

[Ramon Arrowsmith & Mike Treder: Science Saturday: Earthquake Edition](#)

It was fun, although I was a bit nervous and certainly not nearly as articulate as I would like to be. How can I not remember certain things? And I do realize that it is the Nazca plate that is being subducted below Chile. Mike did a nice job leading the discussion.

We did come up with some nice links on the side there, including:

[Collaboratory for the Study of Earthquake Predictability](#)

[CNN piece on why Haiti's quake killed more than Chile's \(Colin Stark\)](#)

[Ramon's roundup of earthquake links](#)

[Mike on the lessons of Haiti and Chile](#)

[Roger Bilham on “The seismic future of cities”](#)

[Equation for seismic moment and moment magnitude](#)

[Susan Hough's book, “Predicting the Unpredictable”](#)

[Susan Hough's biography of Richter](#)

[Susan Hough's earthquake tourist guide of California](#)
